

We just wanted to let you know how much K-Love means to us here in Colorado. This is the ONLY station that we listen to. We love that it is family friendly and we don't have to worry about what is said.

If K-Love were replaced I don't know what we would listen to...not the radio and that's for sure. We would purchase more Christian CD's and listen to them.

This is an important service and it is the most positive thing on the radio. Almost every other station out there is junk! And what other more important service could anyone provide then the truth about who Jesus Christ is!
